Overview of S.I.T.

Overview

SIT is a club about computers, whether it be hardware, software, or anything in between the two. We will teach you a multitude of things that you can apply to your daily life or hobbies.

- What makes up a computer?
- What's a server?
- What's the difference between hardware and software?

Here at S.I.T., you will learn about these things and more!

overview

Over the course of this year, during lunch, we will meet and discuss topics oriented around computers, teaching you all the essentials you need to know, as well as fun things too. We intend for you all to have a nice experience with interactive activities to help you learn about computers and how you can fully utilise them to benefit your life.

>>>>>

Don't worry, take your
time, because we only
start 10 mins after
lunch starts

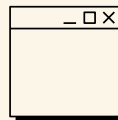

OFFICERS

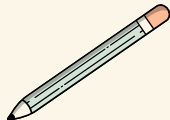

President

Augustus Mandac
(gusty)

Vice President

Aayan Muhammad Zahidi
(Hier)

Secretary

Axel Llarina
(axel)

Treasurer

Hanz Luna

President - Augustus

## Specialities:

- Building computers and servers
- Making the network for my devices
- AI rendering and machine learning
- 3D modeling and 3D printing
- Using clusters of computers
- Owns 300+ GB of RAM(DDR3,4,5)

## Hobbies:

- Playing games
- Weight training
- Tinkering with computers
- Custom keyboards

*This was about a year or so ago*

# Vice President - Aayan

As your Vice President, I  
am also responsible for  
general club organisation  
and curriculum.

## Specialities:

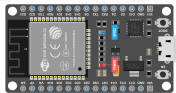

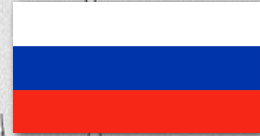

### Firmware building:

- Iterative algorithms
- PID controllers
- Guidance systems
- Physics simulations

### Embedded Systems:

- C/C++ 
- Arduino IDE 
- Peripheral wrapping
- Dynamic systems control

I learn languages and stuff

secretary. - axel

hi my name is axel and i like  
to play and draw

# Hanz- im here ig

Im pretty clearly mexican

Specialties:

- Uuuuuuuuhh

Hobbies

- karting
- Sim racing
- Gaming in general

Im into aerospace and architecture

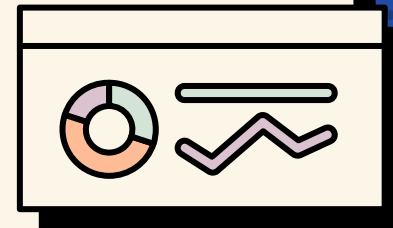

Revolut
